

Leeds Transport Strategy Refresh—Have Your Say!

The draft Connecting Leeds Transport Strategy sets out how we propose to achieve our vision and respond to the Climate Emergency declaration whilst also ensuring inclusive economic growth and also improve health and wellbeing across the city.

We simply don't know what the long term impacts of COVID-19 on business and individual travel behaviour will be, but we do know that people need to be connected and have access to opportunities.

This consultation seeks input to what further measures we should be considering going forward.

Come along to one of our sessions to have your say and share your views with Leeds City Council & Leeds Involving People!

Contact Alison.Brophy@leedsinvolvement.org.uk for more information.
